Competitive Success Starts with the APICS CSCP

The APICS Certified Supply Chain Professional (CSCP) is the most widely recognized educational program designed for operations and supply chain management professionals. Through the APICS CSCP course, you will:

- Understand the supply chain from end to end
- Boost productivity and collaboration
- Move your career forward
- Optimize global supply chain management.

Is This Course Right for You?

This course is designed for operations and supply chain management professionals who are

- Preparing for the APICS CSCP certification exam
- Interested in obtaining more knowledge of how to seamlessly incorporate end-to-end supply chain management to increase customer satisfaction and improve the bottom line
- Experienced supply chain professionals seeking professional development to advance their careers
- Supply chain consultants or instructors

Curriculum to help you succeed

As part of the tuition for the course, you will receive the APICS CSCP Learning System, which includes workbooks and online tools. APICS developed this comprehensive educational program that organizes 150 references into four modules. Together, the print materials, online tools, and the classroom interaction deliver a highly customized learning experience.

Gain knowledge and expertise in

- *Supply Chain Management Fundamentals*
- *Building Competitive Operations, Planning, and Logistics*
- *Managing Customer and Supplier Relationships*
- *Using Information Technology to Enable Supply Chain Management*

The APICS CSCP Exam
