

## Strategic Buyer

Flinchbaugh Engineering Inc. is an employee owned company that specializes in supplying customers with high quality, difficult-to-manufacture metal products by using modern techniques and equipment. For additional company information, please visit [www.flinchbaughengineering.com](http://www.flinchbaughengineering.com)

We are seeking a team-oriented, "hands-on" **Strategic Buyer** with a minimum of two years of sourcing experience, expediting, vendor evaluations, selection and negotiating in a manufacturing environment, preferably with metal castings.

The position requires demonstrated leadership ability, proven negotiation skills, experience with Lean Supply Chain, and **global sourcing skills** with a track record of cost savings and quality improvements. Candidates should possess a Bachelor's Degree and have excellent organizational and written/verbal communication skills with the ability to drive results. Ability to multi-task, problem solve; proactive, with good presentation skills and self-initiative. CPM preferred. Microsoft Office package and ERP experience.

Primary responsibilities include:

- Develop purchasing policies, procedures and controls,
- Perform value analysis, analyze specifications, qualify and select sources and conduct negotiations,
  - Strategic Sourcing:
- Develop and implement sourcing strategies, providing management with timely and accurate data analysis on a daily, weekly, monthly, annual basis.

***Accepting only those applicants who possess position requirements***

Extensive Benefit Package

**Please submit resume including salary requirements.**
