

**Production Supervisor – 1<sup>st</sup> Shift**  
**Reading, PA Area**

Our client is a privately held, successful and growing manufacturing company with several plants located throughout the U.S. They enjoy a reputation for high quality, responsive service along with continuing to hold a leadership position within the markets they serve.

**Position Background:**

Supervising a staff of hourly personnel, you lead and manage the production operations for a large facility (275,000 sq ft with 250+ associates). You will ensure key objectives are met in areas of production planning, quality, cost control, safety and time management. You will also work collaboratively and successfully with other functional groups including sales, engineering and customer service to drive future business growth and achieve maximum production efficiency.

**Qualifications:**

Candidates should bring a BS Degree from an accredited institution along with 5+ years in a related supervisory capacity from within a fast-paced industrial manufacturing environment. You will bring the initiative and competence to anticipate and respond to issues along with the ability to identify and implement changes as needed. Exposure to Lean Manufacturing principles, excellent communication skills, personal accountability, and a strong sense of urgency will round out your background.

The position offers a highly competitive compensation package consisting of a base salary, bonus and a full suite of benefits.
